

Siffatti suoni mai li udisti in vita tua.

La ESP di New York. **"Siffatti suoni mai li udisti in vita tua"**.
Fondata nel '64, nel bene e nel male etichetta-simbolo della
"new thing".

Un'azione di guerriglia, diretta a colpire in positivo chi il jazz non lo conosce, ne ha un'idea stereotipata, ma di certo gradirebbe certe timbriche "acide" e sommosse iconoclaste, se qualcuno glielne mettesse a tradimento nell' i-Pod.

ESP, New York City. **"You never heard such sounds in your life"**.
Founded in 1964, it was the most emblematic record label of the
"new thing".

It's a guerrilla blitz aimed at surprising those who don't know jazz and are prisoners of stereotypes and yet would appreciate certain "acid" sounds and iconoclastic riots, if we secretly loaded them on their i-Pods.
